FOR IMMEDIATE RELEASE

TableTop Media Names David T. Miller as Partner

Pioneer of On-premise Paging for Restaurants Brings Restaurant, Business and Technology Expertise to Fuel Rapid Growth

DALLAS, TX (April 9, 2009)—TableTop Media LLC, creators Ziosk™, the first pay-on-demand and digital promotion device for the restaurant industry, today announced the appointment of David T. Miller, founder of JTECH Communications (JTECH), as a Partner. Miller will lead the go-to-market strategy for the Ziosk solution for casual dining, fast casual, QSR, airports and hotels.

“Dave is one of the most admired and well-liked ambassadors of our industry,” said Jack Baum, CEO of TableTop Media. “His exceptional track record shows exemplary dedication, expertise and leadership in working with some of the biggest and best-known restaurant brands to develop and deliver technology solutions to the restaurant industry.”

Miller brings more than 30 years of business strategy, technology and restaurant industry expertise to TableTop Media. He is an accomplished entrepreneur and former restaurateur who pioneered on-premise paging for restaurants. Prior to joining TableTop Media, he founded JTECH, the first restaurant paging system to help restaurants alert guests that their tables were ready. In 2005, he sold JTECH to MICROS Systems, Inc., at which time he became Founder and Vice Chairman. Today, JTECH guest and server paging systems are used in more than 60,000 locations worldwide and are in the hands of an estimated two million consumers on any given weekend.

“When I reviewed the TableTop Media offering, I immediately knew this was a game-changing and innovative solution that would revolutionize the casual dining experience,” said Miller. “I have spent a number of years working in and with the restaurant industry and am excited to be part of this team that will forever change the guests’ experiences.”

Miller earned his BS degree in business management from Boston College. At age 22, he opened his first casual dining restaurant in Ft. Myers Beach, Fl, and within two years his restaurant was named as one of the top 10 restaurants in Florida by the *New York Times*. He has spoken at many industry venues including FSTEC, California Restaurant Show, Florida Restaurant show, and has moderated at The National Restaurant Association’s Technology Pavilion for the last 10 years. Additionally, Miller conducted the inaugural “Technology Tour” and at the request of the NRA in Chicago still continues the popular tour.

About TableTop Media

Founded in 2006, TableTop Media, LLC, a media technology and content management company, created the first interactive tabletop experience with next-generation pay-at-the-table functionality. TableTop Media’s core product, Ziosk™, is an intuitive, touch-screen device placed on each table to improve the guests’ experience and control of their time. Proven to deliver increased revenue and lower expenses, Ziosk is a platform technology that can grow with the restaurant over time. For more information visit TableTopMedia.com.
